Description of Property and Eligibility Determination: *(Use continuation sheet if necessary and attach map and photo)*

The Gorsuch-Wilson House was described in a brief blurb as a house built by Builder Conrad Wies in 1878 for Margaret E. Gorsuch. The historic maps (Hopkins 1877 and Sidney 1853) show the house as belonging to T. H. Grupy.

The house is a stone dwelling, 2-1/2 stories high, with a full front, two-story porch with ionic columns supporting a shallow roof. The roof above the main pile is side gable with a central gable over the main entrance. The building is five bays wide, and contains two over two windows. There is one rear addition, which is also two stories tall.

The building is an excellent example of mid-nineteenth century architecture, typical of the northeast Baltimore County. As a result, it is eligible for inclusion in the National Register of Historic Places under Criterion C, architecture. Research did not reveal significance under Criteria A or B, and no research was conducted under Criterion D.
